### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Amendment***

1. Acknowledgment is made of the amendment filed by the applicant on April 26, 2007 (hereinafter "Amendment"), in response to the non-final Office action mailed on January 23, 2007 (hereinafter "previous Office action"), in which: claims 1, 10 and 16 are amended; and the rejections of the claims are traversed. Claims 1-27 are currently pending in U.S. Patent Application No. 10/032,364 and an Office action on the merits follows.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claims contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

4. For the same reasons provided in paragraphs 4(a)-4(e) of the previous Office action, the disclosure of the instant application is absent any working examples that would teach the method of function selection wherein tilting and rotating said display projection system results in a change in an angle of said projected display to align a dot with a visual representation of said function.

Art Unit: 2629

5. Applicant argues that anyone of ordinary skill in the art could implement logic to cause the dot to remain relatively stable while allowing the rest of the projected image to move, and that software in the projection display device compensates for the movement and causes the dot to remain relatively stable. (Amendment at pp. 6-7.) Examiner respectfully disagrees, as disclosure of the instant application does not provide any suggestion/description of the logic or code that would enable one of ordinary skill in the art to achieve the method of function selection, as presently claimed.

### *Conclusion*

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
